## COMMENTS INVITED ON APPLICATION OF VERIZON LONG DISTANCE LLC TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES

WC Docket No. 10-30  
Comp. Pol. File No. 927

Comments Due: February 10, 2010

Section 214 Application  
Applicant: Verizon Long Distance LLC

On January 8, 2010, Verizon Long Distance LLC (Verizon or Applicant), located at 1320 N. Courthouse Rd., 6th Floor, Arlington, VA 22201, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services in Arizona, Idaho, Illinois, Indiana, Michigan, Nevada, North Carolina, Ohio, Oregon, South Carolina, Washington, Wisconsin and select wire centers in California that border Nevada, Arizona and Oregon (collectively Service Areas).

Verizon indicates that it currently provides "iobi Home" and "iobi Professional" services in the Service Areas. Verizon explains that "iobi Home" service allows residential customers to use their computer or telephone to forward incoming calls placed to their Verizon telephone number to voice mail or other telephone numbers, and also provides caller identification information for incoming calls placed to the customer's Verizon telephone number. Verizon further explains that its "iobi Professional" service provides the same capabilities to small and medium-sized business customers. Verizon states that it plans to discontinue "iobi Home" and "iobi Professional" services in the Service Areas on or after March 1, 2010, subject to regulatory approval. Verizon, however, maintains that the public convenience and necessity will not be impaired by the proposed discontinuance because comparable alternative services are available. Verizon indicates that it mailed notice of the proposed discontinuance to all affected customers on December 28, 2009. Verizon states that it is considered non-dominant with respect to the services to be discontinued.

In accordance with section 63.71(c) of the Commission's rules, Verizon's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies Verizon that the grant will not be automatically effective. In its application and notice to customers, Verizon indicates that it anticipates discontinuing service on or after March 1, 2010, subject to regulatory approval. Accordingly, pursuant to section 63.71(c) and the terms of Verizon's application and notice, absent further Commission action, Verizon may terminate its "iobi Home" and "iobi Professional" services in the affected Service Areas on or after **March 1, 2010**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1205-1.216. Comments objecting to this application must be filed with the Commission on or before February 10, 2010. Such comments should refer to **WC Docket No. 10-30 and Comp. Pol. File No. 927**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998).
